Subject: Limiting Access to Electronic Public Records

I'm writing to express my opposition to the Public Records Board's secretive decision last August to limit access to electronic public records.

Your decision will aid and encourage politicians to conduct the public's business in secret. Electronic notes generated during public/government business should be viewed no differently than notes on paper.

Furthermore, your decision appears to have been made in secret.

Both of your actions - the decision and the manner in which it was made - are an affront to open and transparent government.

I believe the board should rescind its decision. I also believe you should stop making such decisions in secret.
