**Subject:** Limiting access to electronic records

I am writing to let you know that I think it would be a travesty to limit access to text messages, email, facebook and twitter or any electronic communications by public employees.

As a citizen, I believe it is my right to have access to electronic communications of public employees that I have elected or been appointed by people I have elected.

Please rescind your action of last summer to limit access. This was not done with our, the public, knowledge. It is not fair and I certainly will remember the action taken, in the elections of the people I want to represent me.

Betty Jo Azpell
