Subject: Limiting access to public records comment

I would like to express my dissatisfaction regarding the board limiting access to emails, Facebook posts, text messages and other electronic communications by public employees. It is unfair to those of us who are "the public" if those we choose to represent us are not open to scrutiny. This change seems a blatant political attempt to protect and shield those who should be most accountable.

I urge you to please re-consider your change to our public records access so that all are open to us today and in the future, no matter who happens to control the political process. Please remember that this is a two-edged sword that can also work to the definite disadvantage of those who are currently in power. We all deserve to keep our public officials accountable. It preserves the kind of well-respected clean government that Wisconsin has previously been known for.

Thank you for your consideration of this important matter.
