Subject: Limiting access to public records.

Why do we, the public, have to be shielded from access to text messages, emails, Facebook posts and other electronic communications by public employees? What are they doing that needs to be hidden? This only leads me to speculate that what is being done is shifty, illegal, and downright immoral. It's a carte Blanche policy for corruption. We expect public employees and elected officials to be open and above board, not slinking in a dirty corner hiding their dirty dealings.

Please restore some faith in this government and do not limit the PUBLIC's access to records. We have a right to know.
