Subject: Limiting access to public records

As public employees you should be accountable to us. I could never have locked away my actions from my employers. Or maybe you no longer feel that you work for us. Maybe you feel like you serve a higher calling and we don't really count after the election. There in lies a dangerous path. Perception is reality, and what we perceive is that you wish to hide something. I would prefer that my access to public records not be limited. I respectfully request that you rescind this order, while I still hold some respect.
