**Subject:** Maintain Open Records

Wisconsin has a long history of what is considered to be "clean government". With repeated assaults on open records, and the creation of obstacles to access to OUR records, created by OUR state officials, we are at risk of completely undermining the democratic government that the Founders held so dear.

I urge you to NOT make any changes which would have the effect of limiting archiving or access to records of any kind, whether they be considered to be important or not. Only with the passage of time will we have the ability to determine the value of these records. It is vital that all records be maintained, and be made accessible to our citizens.
