Subject: Milwaukee Journal Article

I as a citizen of this great state of Wisconsin condemn any actions taken by your board to limit, hide, conceal, mask or shroud any record or form of record created in the public realm including text messages, emails, Facebook posts or other forms of electronic communication.

I am sick and tired of seeing so many instances where the Walker administration has tried one dirty trick after another, lie about it, and then look for creative little ways to try and hide these lies. This administration should be ashamed of itself, and the citizens of this state embarrassed that we continue to tolerate the kind of administration that represents Wisconsin.

I can tell you where my votes will go next election, and will urge my family and friends to vote likewise.

Vern Barnes
Menomonee Falls
