Subject: More Secrecy?

As a State of Wisconsin taxpayer, I am appalled by the latest attempt to make secret the electronic communications of our state government. Every single communication between elected officials (whether it's email, text, letters, etc.), should be open and available to the citizens of this state.

I guess the people who are promoting this secrecy probably have conversations & electronic letters that they would like to keep hidden. What other reason might they have for promoting inappropriate secrecy? None that I can think of..... Hopefully, the people of the State of Wisconsin will come to their senses very soon, and vote out of office the individuals who seek to hide their doings.....
