**Subject:** Open Government

Please take no action which would shield any documents, electronic, written, video, computer files etc. from public scrutiny. It is our right as citizens to have full access to what our government is doing, thinking, planing, writing, discussing. Those legislators or public employees who are uncomfortable with this situation may resign and be replaced with someone with nothing to hide.

Right now, I can't tell the difference between Tammany Hall, the Duma, and the Wisconsin State Capitol. Wisconsin doesn't want a slimy secretive government, so don't attempt to give us one.
