Subject: Open Government

Hi,

I am writing to you to strongly urge you to rescind the actions to limit access to text messages, email, Facebook posts and any other electronic communication by public employees. We the citizens of this state have a right to know what our government is doing. We don't need the people we elected to office to be sneaking around in secret and doing things that only benefits themselves.

Just remember, we the people of this state elected these people to office and we the people can elect someone else in the next election, (that is unless something is done in secret that we cannot find out about). I am getting more and more fed up with our elected official trying to hide everything and becoming more like dictators.

Cy Daul
