Subject: Open Government

Dear Sir or Ma'am,

I am writing to request you correct the mistake made at your August meeting where the Board allegedly tried to clarify existing language regarding transitory records. Your chairman stated it was minor and was not substantive enough to warrant inclusion in your August 24th agenda or meeting notes. The Walker administration used your "clarifying language" the very next day to withhold information from the public, demonstrating the change was not minor. Additionally your actions give the impression that our governor's administration was using your Board to hide information from the public, especially when the governor and legislative leaders were trying to secretively remove open government requirements the previous month during the debate on the budget bill. Wisconsin deserves better. We deserve a fair, open, transparent government.

I (Brian) attended the United States Military Academy and proudly served my nation. I served for better things than this. It is a disgrace, disgusting and not what this nation, or this state, is all about.

Please return the language to its original intent to keep government work transparent to the public.

Sincerely,
Brian and Sara Klawikowski
