Subject: Open Record Ruling and comments

Attention:

My first thought is why are we trying to limit our peoples right to know what the government is talking about and proposing? It is time for this attack on WI citizens to stop. Electronic information is the norm today and if anything we should be opening it up more to the public and not reducing it. Please reconsider your rules and do what is right for the citizens and not for the politicians. I hope you hear me or we will need to put together major political efforts to be sure the citizens have the right to know and with all the information at all levels of government. Stop this attack on citizens today.

Thanks.
