Subject: Open Records Law clarification

Dear Mr. Blessing,

The state Public Records Board needs to rescind its action to limit access to text messages, emails, Facebook posts and other electronic communications by public employees.

In this era of polarized government, the general public's access to public employee communications is imperative for citizens to be aware of how our taxpayer dollars are being spent, and how our elected politicians are choosing to govern. That includes discussions via email, social media, and other electronic means. Changes in technology should not dictate changes in policy. I have a choice in this election year, and I will not support those who try to curb access to government.

I implore the Board to do the right thing and rescind its action.

Sincerely,
Ann Navin
