Subject: Open Records Law

Text messages should not be exempt from Wisconsin's open records law. The current administration under the guidance of Scott Walker has steadily eroded Wisconsin's long, upstanding history of open government. Wisconsin has been envied and copied for its handling of fairness and transparency in our State government, but no longer. We must not allow any further damage by making text messages exempt.

The citizens of Wisconsin deserve to return to the open government it once was. It is up to you do the right thing, to do what is best for Wisconsin and its citizens. Uphold the open records law and keep all politicians (both Republicans and Democrats) accountable to we, the people.
