Subject: Open Records Law

Wisconsin legislators need to keep the open records law intact. We do not need our lawmakers working behind the scenes and sneaking around without conducting open meetings and open access to conversations especially since they are elected officials. These open conversations should include not only verbal or written methods, but also electronic communications. I have been involved in education for 30 some years and all of our records are open to the public. Shame on you for being elected and not following through with the same thing.

Once again I feel all records of our government's communications need to stay open and accessible so that we know what elected officials are actually doing.

Thank you for your time.
