**Subject:** Open Records Law

Public Records Board

The open records law needs to stay open for all communications which would include e-mail, text messages and any all other methods of communicating by public officials and all government employees. They are all employed by the tax payers of Wisconsin and they should be working for the good of the tax payers and citizens of Wisconsin. Changing the law to allow secret communications will lead to corruption in government by some representatives in both political parties. Public records is the only way the citizens of Wisconsin will know the truth of what is going on in government. I ask you to the keep the opens records law open to all forms of communications. This is a democratic government and not a dictatorship which would suppress information from the people.

Regards
