Subject: Open Records Laws

Dear Open Records Committee Members:

STOP trying to change open records laws to make it more difficult for the public to know what our representatives are doing with public business. Rescind the changes you have made regarding electronic records, or any records, no matter how temporary, to allow us to know what messages are being made by government staff regarding public business. You should be supporting transparency and openness in government actions, not trying to cover up the messages and information sent by government staff.
