**Subject:** Open Records

Dear Sir or Madam:

Please DO NOT consider allowing electronic records such as emails, texts, Facebook posts to be considered as "transitory" and thus be eliminated or blocked from public access. Members of government should be conducting the PEOPLES business and not any other agenda and as such all communication should be available to the public it serves.

We are citizens who vote.

respectfully,

Robert & JoAnn Hempeck  
Sussex, Wisconsin
