Subject: Open access to public records

To whom it may concern:

In a democracy, secrecy has no place in government. Electronic media like texts and email messages are now a primary means of communication for many people and when they are used by government officials the messages should be available to the public. Keeping them secret also invites officials to use these electronic methods to circumvent public scrutiny of their actions. It is disgraceful for Wisconsin to have such policy. I urge you to rescind the policy revision made last August.
