**Subject:** Open electronic correspondence to the public

Hello,

I would like to express my concern about the lack of transparent government and the need to include electronic communications, notes, records, etc. in the public open records. Electronic communication maybe faster and more efficient but it is not temporary. It is expressed ideas, opinions, intents for action or inaction and the public has the right to know what decisions are being discussed and/or made via electronic communication. Please reconsider and change the policy of electronic communications to make them available to the public and improve Wisconsin's transparency of government.

Thank you for providing this opportunity for public comment!

Sincerely,  
Christine Neff  
Barnes, WI
