Subject: Open records and transparency

I am opposed to any change in our open records law that in any way changes or hinders the public that you serve from learning and understanding how our elected officials are conducting business, making decisions and creating or altering laws. Please don't offer that all you are doing is "clarifying" portions of current laws. People who embody integrity and honesty do not need to hide anything they are doing, including ANY written communication. Your tactics of passing laws in secret and searching for a technicality that, in your minds, justifies not notifying the public of your intentions, is completely unacceptable. As a voting citizen, I am outraged that any changes would be considered.

Respectfully submitted,
Karen Wawrzonkowski
