**To:** DOA Public Records Board Comments  
**Subject:** Open records law

I was and am totally opposed to the Board decision of last summer exempting e-mails and other communications from the Open Records Law because any attempt to keep any part of government secret is a grater threat to our security than any threat of invasion by any foreign power like ISIS or China or Russia. State and local governments have to be transparent if we are to have any hope of this in our national government.
