Subject: Open records legislation

It is long past time to punish the Republican legislators by not allowing or promoting the restraint of Public records access in this state! They are following in "rote step" with Robin Vos, Scott Walker and Fitzgerald to pursue evil legislation!! REMIND YOU OF THE HITLER REGIME? These Politicians are selling the citizens of this state "down the river" by their corrupt tactics! It's time For the board members to have the guts to do the right thing and actually show some integrity by Shutting down this issue instead of pandering to the party in power in this state !!
