Subject: Open records of electronic records

Members of the public records board:

As a State of Wisconsin taxpayer I demand that you rescind your action to limit access to text messages, emails, Facebook posts and other electronic communications by public employees. I believe if a government is truly representing their electorate, they would welcome any opportunity to prove that though release of their electronic records. Allowing those records to be destroyed can only be interpreted that those holding current offices want to hide what they are doing from the public. Open records access is the key to holding public officials accountable to us. I strongly believe that a democracy is put at extreme risk without access to all public records. Therefore, it will become the deciding factor when I vote in upcoming elections.
