Subject: Open records

Your recent actions in violation of the Open Meetings Law and destroying public records makes me wonder who you are and who are you trying to cover up for. I don't know any of you on the board but simply stated you have acted wrongly in preserving public records. If you cannot see the obvious need to keep the public's right to access ongoing actions and activity by government officials and employees you should not be on the Public Records Board. Accountability and oversight are the two most important rights in a democracy. Americans do not request these rights ,we insist on them. You need to take action as a board to renew my confidence or quit your pretence of public service. As you appear today you are serving someone other the citizens of Wisconsin.Regards, Tom Podlesny, Gurney, WI
