**Subject:** Oppose limiting access to public records

**Transparency! The public deserves to know what elected officials are doing. If it is not for the public to see/hear/know, then it should not be said/written.**

**Please reverse any rulings and legislation that limits the open records law. Make all electronic communication such as texts, emails, voicemails, telephone calls, Facebook posts, tweets, etc. by public officials and public employees open to public scrutiny.**

**If you are not supportive of open government in its entirety then you do not deserve to be a public official. Your choices will be reflected in my vote for you and for all like minded candidates.**

**Wisconsin has a proud history of open government. Keep it that way!**

**Regards,  
Lynn Charnitz
