Subject: Opposition to Limitation of Access to Public Records/Electronic Communications

I am both distressed and strongly opposed to your move to limit access to public records in the form of electronic communications. Your motives in doing so are clear, i.e., the intent of your action is to curb the public's ability to better understand the conduct of our elected officials, and to know what our elected officials are doing with their money. I urge you to immediately rescind access to electronic communications, or those elected officials who support your actions will face serious consequences in upcoming elections.
