Subject: Peoples right to know

Dear Board. I am writing to ask you to rescind your decision to limit access to electronic messages. In this day and age much of the publics business is conducted electronically. The public has the right to know how it's business is being conducted. This action on your part once again shows me that elected officials and those who work for them feel that they are allowed to take actions that limit public involvement and information. Please allow the States business to be done under the light of day and not in secret. Thank you Jim and Yvonne Zalewski.
