To: DOA Public Records Board Comments
Subject: Please keep government documents public

To whom it may concern:

Please do NOT exempt electronic records from disclosure. They are the public's records and the public has to right to know what our officials are up to when they consider and enact legislation that affects all of us. Emails and such might be put to good use by officials, but the officials should not use this "new" technology as an opportunity to keep secret the very types of information that have long been publicly available.

Thank you for your consideration.

Sincerely yours,
Richard Heiden
