Subject: Please keep our electronic public records PUBLIC

To Members of the Public Records Board of Wisconsin

We are deeply distressed by the change in the definition of "transitory records". Most business these days is conducted electronically. When such business is conducted by government employees spending our tax dollars we have a right to see the electronic communications. Government should be open and public records should be truly public. The actions of the Public Records Board should not be supporting politicians who seek to conduct their business in secret and such politicians should not be reelected.
