Subject: Proposed Transitory Records Exemption

We are strongly opposed to the proposal regarding transitory records that would exclude electronic communications among public officials, to public officials, or from public officials from public view and examination. Wisconsin has had a long tradition of open government and strong protection of the public's right to access public records, and the communication of public officials about public policy and decision making. No electronic or written communication of public officials, whether elected or appointed, should be excluded from the public review.
