**Subject:** Proposed limits to access to public records - I am against

Greetings:

I am not someone who tends to speak up about public service matters, but in this case I feel I must. For the past couple of years of hearing increasingly emboldened proposals, this one to limit access to information and electronic transitory records of how our state government runs is most distressing. I believe in **transparency whether in public or private matters and this move goes counter to that. Further, this is** starting to put the Republican party in a very negative light. Perhaps more study into the benefits and drawbacks of taking this action needed. To do otherwise will only increase distrust of our elected officials.

Thank you for your attention.
