Subject: Public Commentary to the Public Records Board
Importance: High

I will use my vote whenever I can against anyone who tries to limit public access to written or electronic communications between and/or among state officials and government employees regarding any government activities. This includes text messages, emails, Facebook posts, etc.

I reject the Public Records Board's recent efforts to quietly, and without public notice or reporting, change the definition of "transitory records". The Board has a responsibility to keep public records public. It should not facilitate efforts to curb the public's ability to know what our elected or appointed officials are doing or trying to do.

In Wisconsin we need transparency, not continued efforts to weaken our open-records law. I do not want a state government that can work behind the scenes, out of the view of the electorate. I will use my vote in the future to ensure that Wisconsin government is transparent.
