Subject: Public Records Access

I am writing to protest the decision to limit access to electronic records and to ask that this decision be rescinded. I believe that a true democracy depends upon open and transparent government and this includes all communications that take place when government employees conduct government business, no matter how supposedly "transitory" this business is, so this includes emails, texts and phone messages. Thank you. Respectfully submitted, Jo Ann Bachar, 414 272 6191, 1621 N. Franklin Place, Milwaukee, WI 53202
