Subject: Public Records Should Belong to the Public

Good Morning,

I would like to express my feelings on the recent debate concerning public records. I believe the action currently being considered by your board, is totally inappropriate. In fact, I would say it borders on being corrupt government. If government employees are doing state business on electronic devices, and everything is above board, why should they be concerned? It seems that the only ones that would want such records concealed are those with something to hide. Is that the type of government you stand for? If they were Hillary's e-mails, I bet you would feel differently.

Wisconsin has long been a model for open and transparent government, don't lower us to Chicago or Illinois standards. Do the right thing, and reject this attempt to create a shadow government in Wisconsin.
