Subject: Public Records

To the Public Records Board:

Drawing the curtains on open government is unacceptable. Electronic communication is communication, plain and simple. I personally handle much of my business via email. It is not a subordinate means of communication. Its how matters are usually handled these days. In no way should electronic communication be exempt from the open records laws.

Please make decisions for the good of the people in Wisconsin, and stop trying to increase secrecy in government.

Regards,
Linda Binder
