Subject: Public Records

This is the second time you people have sought to deny the citizens of Wisconsin access to records we pay for with our taxes. It is your responsibility to keep the public informed on what you as an employee of the taxpayers of Wisconsin and this action on your part only seeks to prevent that from happening. What you are attempting to do is a sneaky underhanded attempt to cover up your corrupt actions. As a group you are the most misguided, selfish, power hungry, self-serving organization to ever come into office in the state of Wisconsin. This action needs to stop immediately and you all should be impeached for your attitude. And you can bet that the whole lot of you will never benefit from my vote come election time.
