To: DOA Public Records Board Comments
Subject: Public Records

The purpose of this message is to inform the Public Records Board and all of the board members this message is directed to that I very firmly believe that the State, Federal and Local Governments maintains complete transparency in all of its functions, activities and communications. This applies to all employees of said governments including elected and appointed representatives of this great state of Wisconsin. I do not approve of your repeated efforts to restrict public access to public records, written and electronic. The Public Records Board is responsible for keeping all public records readily accessible to the public. I cannot and will not give politicians excuses to hide behind while executing their personal agendas. Elections are coming soon and I promise you I will not vote for any candidate that supports restricting access to public records.

Sincerely yours,

Arlo W. Bauer
