Subject: Public records hearing

To the members of the Public Records Board:

ANY/ALL records, be they electronic or printed that discuss the public good in the state of Wisconsin (or the United States of America), with the exception being those deemed top secret for security purposes only are and should be a part of the public record. We elect our representatives to office to represent us and not keep secrets from us. Please do not gut this law, but rather work on expanding it to broadest extent possible.

Thank You,

Gary Bump
