**To:** DOA Public Records Board Comments  
**Subject:** Public records limiting access - Shame on you!

We would like to go on record as being opposed to the on-going limit and secrecy of public records. We are supposed to be a government "of the people, by the people, and for the people. The continuing of limiting access and control of information goes against everything our country was founded on. If you feel the need to conceal information, then there is probably a reason why. We will be watching and voting in this next election and we intend on holding our public elected people accountable.....were watching!
