Subject: Public records

I do not want public officials to hide behind "transitory" records conducting all sorts of government work. Open records need to remain OPEN. I have had enough of government officials thinking the general public are fools enough to believe they are honest, and would not try to hide deals in texts messages and the like. I want to know, and have the security to examine any and all records of public officials and meetings. Stop this "transitory" language and keep the records open.
