Subject: Records relating to our legislator's actions

The legislature wants to destroy Wisconsin's open record laws as evidenced by the July 3rd debacle and the recent definition of text messages as not needing to be kept and therefore disclosed when asked, which occurred in a meeting that did not meet the open meetings law. What is going on? We the citizens of Wisconsin have the right to know the background for decisions and legislation of all government operations. It is clear the legislature doesn't think so. This is a democracy. Our elected officials need to be accountable to us, whether they think they can do whatever they want in secret or not. Please retain all open record laws. They are clearly needed.
