Subject: Records. Open records

All records regardless of how they are created if it has to do with state business must be saved and available for public review. These changes are meant to hide facts and players. It is important to open government that all communication created doing any type of state business is saved. All records. What you did was wrong late day changes, no discussion, no knowledge of who made or submitted this change, yet the gov used said midnight change to deny records the following day.this can not be in the best interest of the state or its people.
