Subject: Rescind Acion to Limit Access To Transitory Records

January 6, 2016

I'm am writing to express my opinion that the Public Records Board needs to rescind its action to limit access to text messages, emails, Facebook posts and other electronic communications by public employees.

I am appalled by the actions of this administration to do away with the long history of open government in Wisconsin. I have taken pride in being an independent voter over the years; casting my ballot based upon the issues rather than the politics. What does Scott Walker and the legislature have to hide? If the answer is nothing then why take actions that indicate otherwise?

As a citizen of Wisconsin I believe strongly in an open and transparent government and that it's your duty to keep public records public. This is not the first time this administration has tried to do away with open government and if it continues I pray there will be consequences at the ballot box. I voted for governor Walker in the recall election but if this assault on open government continues I will never vote republican again.

A disappointed citizen of Wisconsin.
