**Subject:** Rescind Actions to Limit Public's Access to Information/Communications

Shame on the Public Records Board for its attempts to limit information to the citizens of Wisconsin and the press. The Public Records Board needs to rescind its actions to limit access to text messages, Facebook posts, and other electronic communications by elected officials and staff.

This is an election year - concerned citizens will work hard to oppose officials who take/support actions to limit public access to State of Wisconsin communications. For example, I voted for Scott Walker, but now I will work to help defeat him, in good part because of his/Republicans' repeated attempts to prevent citizens' access to State information and communications.
