Subject: Rescind Public Record Restriction

I'm writing to express my opposition to the proposed restrictions regarding access to electronic records such as Facebook, text messages, email and other electronic posts of public employees. I also admonish the board for their secretive meetings which violate the Open Records Laws of the State of Wisconsin.

There is an expectation of records being open for public scrutiny and information. This proposal of the Public Records Board goes against the public's right to know.

Please do your work independently from those who are in power in Madison. The Governor and legislators were asked to provide some electronic records and now are moving to make sure that does not occur again. They continually work to change long standing and publicly beneficial rules/laws which are detrimental to their ultimate plan of tweaking the laws and rules to suit only the interests of their friends.
