Subject: Rescind limitations on public access to text messages, etc

Public Records Board members,

I am writing to request that you rescind your previous action limiting access to text messages and other electronic communications by public employees. I strongly oppose this change, and other efforts by the current state legislature to limit the public's ability to know what its government is doing. I consider this one of the most important issues in the state and will be watching your response carefully.

Sincerely,
Mark Barnard
