Subject: Rescind the Change to the Definition of Transitory Records

Dear Public Records Board Members:

I am writing to ask that you rescind the change you made to what are considered "transitory records." Given the importance of electronic communications in the world today, the change was not a reasonable one.

I have voted Republican in every state election and for all of my life. I voted for Walker each time he ran and against the recall, but if you go through with this, I will vote for Democrats in state elections for the next several election cycles, including voting against Jim Ott and Alberta Darling, my Assemblyman and Senator.

Thank you for your consideration.
