Subject: Secrecy vs honest leading

Public records are part of our right to know what our representatives are doing! Legislatures really are meant to work for us. When you become secretive, I assume you want to follow your agenda and you do not think we would approve. That is totally against our free ability to make you accountable. The secrecy used to draw our districting maps is a clear example. You knew you were not being fair and honest so you hid what you were doing! Don't be childish, be honest and open and you will not need to hide what you do!!! Work for us not for your secret agendas.

Open records are very important, let us see them...
