Public Records Board, I am so angry at what certain public officials are trying to do to keep documents, plans, comments from the public that I hope I can do this in a calm rational fashion.

Elected public officials were hired by me and the rest of the citizens of Wisconsin to keep us safe, provide education, and assist all to move, 'Forward', in our lives in this state. Hiding records from us is childish and criminal. When I was employed my supervisor knew and had the right to know what I was doing as an employee. We the public have the same right to know what our employees are doing while on the job.

Let go of your egos, let go of your search for a gravy train to provide for your future, and concentrate on moving Wisconsin ' Forward'
